WORK EXPERIENCE

IT Technician & Web Development Trainer — Solutions2is & EPIM

2023 – 2024

Bamako, Mali

- Trained and mentored 30+ students in foundational web development: HTML, CSS, and introductory JavaScript.
- Guided students through hands-on coding exercises, debugging, and building responsive personal web pages.
- Provided hardware, software, and local network technical troubleshooting across computer lab facilities.

Data Entry Operator — Cabinet SPIRIT ETUDES

2022 – 2023

Bamako, Mali

- Processed, cleaned, and verified large survey datasets with strict attention to accuracy and data integrity.

SELECTED WEB PROJECTS

Groupe Nkasso — Transac Immo (2026)

<https://groupe-nkasso-transac-immo.netlify.app>

Production real-estate commercial website built for Groupe Nkasso. Features responsive property layouts, clear company service taxonomy, and structured inquiry workflows. Built via AI-assisted Vibe Coding and iterative refinement.

RamadanBooks V2 (2026)

<https://ramadanbooksv2.netlify.app>

Spiritual routine and daily habit tracking application. Enables structured daily checklists, Qur'an progress tracking, and persistent reflection notes with clean mobile-first UI.

Complexe Scolaire Les FLOCONS ERP (In Development)

Academic and administrative management platform for a private school. Architected with role-based access control (Admins, Teachers, Parents), student directories, and fee tracking.

Event Master (2023)

Campus event discovery platform built collaboratively during university coursework. Led homepage interface design, event category filtering, and responsive registration UI.

CERTIFICATIONS

- Computer Hardware Basics — Cisco Networking Academy (2025)
- Internet Governance & Cybersecurity — AMRTP Mali (2024)
- Digital Skills & ICT Tools — AGETIC Mali (2023)
